

Welcome to **Health Matters**, a quarterly newsletter distributed by the Healthcare Division of Bodine, Inc. and DeKalb Office. **Health Matters** was created to help our dear friends at the local architect and design firms stay connected to industry news, new products, CEU opportunities, events and much more! Each quarter, we will bring you the latest and greatest in the industry, with the first edition highlighting Neocon. For those of you that were unable to attend this year, below is your own little *dose*!

WIELAND ALLAY (Best of Neocon Gold!)

things to know:

An angled seat and contoured back provide sitting comfort without sacrificing a level sleep surface.

With a simple motion, the integrated pull handle intuitively tells the user how to operate.

NURTURE POCKET

things to know:

Small footprint to fit into the real world of healthcare.
Quiet and easy to move.
Accommodates changing technology.
Moveable magnetic accessories.
Configurable storage.

PETER PEPPER EVOLUTION (Best of Neocon Silver!)

things to know:

Tailored to your environment and today's connection needs, Evolution combines technology access with patient and clinical tools to create a positive care experience.

MURMURS...

You can burn up to 280 extra calories a day- roughly 20 lbs. a year- just by standing for two hours throughout your workday, according to Dr. Mark E. Benden, author of the book *Stand to Lose* and Vice President of Neutral Posture Inc.

HOUSEKEEPING...

Don't miss out on the opportunity to earn .01 CEU Credits at the next IIDA meeting hosted by Bodine, Inc. and Nurture by Steelcase! RSVP to info@iida-al.org.

"Designs for Healing" July 29th – 11:30 – The American Cancer Society

NURTURE TAVA

things to know:

Combines form with function, refinement with practicality, to create the ideal personal space for every user.

Constructed with infection control in mind; all seating solutions feature a crumb sweep and easy to clean around bases.

NURTURE OPUS TECHNOLOGY WALL

things to know:

Modular design allows for easy installation and redesign.
Technology wall allows for easy routing and access for electrical and data.

DESIGNTEX NANOSPHERE

things to know:

Nanotechnology is bonded permanently at the molecular level so the stain repellent seeps into the fibers of the fabric and will never rub off.
High level of stain resistant and third party environmentally certified by blue sign.
It is solution-dyed so it is cleanable with bleach.
The hand of the fabric does not change.
